

REMEMBER TO SEE: SEARCH, EVALUATE, EXECUTE

Don't just ride along on autopilot. Engage your brain before engaging first gear. Constantly search for potential dangers, evaluate what's happening around you and execute measures to keep yourself out of trouble. In other words: think, think, think.

SIPDE -- RIDING TECHNIQUES

S - Scan

Search for potential hazards

I - Identify

Locate hazards and potential conflicts

Cars, trucks & other vehicles

Pedestrians and animals

Stationary objects

P - Predict

How will the hazard or conflict effect me?

D - Decide
